### DETAILED ACTION

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 16-23, 25-35, 37, and 38 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Ohara et al 5,770,682.

The cited prior art discloses a method for producing a polyester from a cyclic monomer, wherein the polymerization is conducted in the presence of an initiator as claimed, characterized in that at the desired degree of polymerization, a phosphinic acid derivative is added. The prior art method has features and characteristics as claimed. See the marked sections of the cited prior art.

3. Claims 16 and 30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 16 and 30 recited copolyester "obtainable from". The recitation renders the claims indefinite and/or confusing because it is not clear when or under what circumstances the copolyester is obtained.

Claim 16 further recites "adding at the latest at a point in time". The recitation renders the claim indefinite and/or confusing.

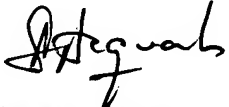

4. Claims 24 and 36 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
